Blow the Winter Blues Away!

28th Annual Winter Classic

The Missing Link

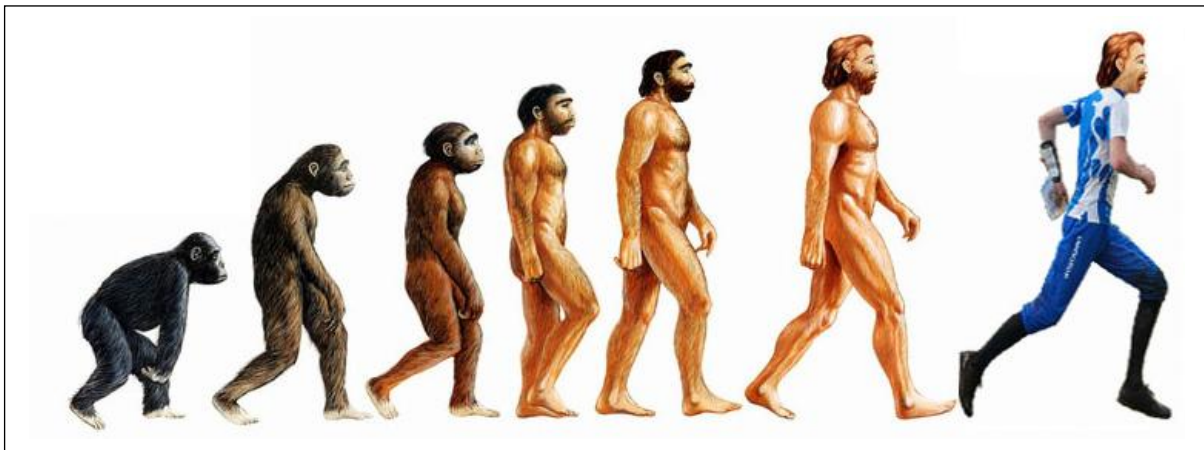

17th August, 2014 - 9am

Come and Explore the Wild Side of Karori / Makara. Orienteer in places you never knew existed. Run, walk or wander through ancient forests, and native bush gullies.

Courses suitable for beginners to experts. Bring the kids, adventure with friends or compete with the best.

Think about taking on the Rogaine Team Explorer where you get to choose your own adventure.

For over 27 years New Zealand's toughest orienteers have been battling it out in the Winter Classic. The expert level event is a BLODSLITET; a relay where you do all relay loops yourself! There are nine trophies for the various solo grades, including the handsome 'Wayne Cretney Memorial' cup.

All are welcome as individuals or teams, and the Rogaine Team Explorer event includes categories for school teams or corporate.

Course Planner, Bryan Teahan, on this year's courses:

"This year's area is another cracker on a new map and area which can only add to the legend of the Winter Classic. Beautiful open pine forest in steep to rolling terrain, sprinkled with some open native bush gullies with rock and cliff features. As a navigator / explorer who craves the ultimate challenge, this year is definitely one not to miss."
